U-factor[1]			*	*	0.29
R-value[2]			7.4	7.4	9.8
Heavy-duty Steel		●		●	
Backing			Vinyl	Vinyl	Steel
Warranty	15-Year Limited	Limited Lifetime	20-Year Limited	Limited Lifetime	Limited Lifetime

* This model has not been tested for U-factor

1 - U-Factors are based on independent testing and verified per ANSI/DASMA 105. For products other than aluminum full-view doors, testing was conducted on specific sizes of solid doors. Actual thermal performance may vary by door size and configuration.

2 - R-value is a measure of thermal efficiency. The higher the R-value the greater the insulating properties of the door. Overhead Door Corporation uses a calculated door section R-value for our insulated doors.

Openers

Be sure to ask about our complete line of Overhead Door® garage door openers. Powerful, quiet and durable, these garage door openers are designed for performance, safety and convenience. Your Overhead Door™ Distributor will help you choose the opener that best suits your door and preferences.

Model 1500 7' high, Long panel, Brown finish

PERFORMANCE, DURABILITY AND VALUE

The Traditional Steel Collection combines the long-lasting performance of high quality steel with the elegance of clean lines and classic designs. Whether you want to create a subtle statement or a bolder one, our wide assortment of neutral tones will complement the architectural details of your home.

Durable Finish
Hot-dipped galvanized steel with two coats of baked-on polyester paint provides a clean look and durable finish. The embossed wood grain texture adds beauty and sophistication.

WindStorm™ Wind Load-rated System
Available on select products to meet regulations for a variety of wind speeds, including hurricane-force winds, and meet the most stringent local building codes.

Bottom Weatherseal
This bulb-type bottom weatherseal guards against wind and rain while providing a cushion when closing.

Reinforced Door Construction
Door is reinforced for maximum strength and durability.

DASMA Door & Access Systems Manufacturers Association International
THERMAL PERFORMANCE
VERIFICATION PROGRAM
www.dasma.com/thermal

Overhead Door™ Brand participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.
